## **Turner Syndrome**

Turner syndrome is a genetic condition that only affects girls. The most characteristic features of the syndrome are being short, having certain physical features (detailed below), and ovaries that do not work properly. Although there is no cure, there are treatments that can help most girls with Turner syndrome lead relatively normal lives.

### **Turner Syndrome Support Society (UK)**

**Helpline: 0300 111 7520**

The Turner Syndrome Support Society is a national charity caring for the needs of those with Turner Syndrome throughout the United Kingdom.

- The Turner Syndrome Support Society offers support, advice and information to women and girls with Turner Syndrome and their families.
- The Society enjoys a good relationship with relevant specialists to promote a good basis for education and management of Turner Syndrome.
- Communication with other support groups, both domestic and international, is important and offers the opportunity for an exchange of ideas to help develop awareness and greater understanding of Turner Syndrome worldwide.
