In January the NHS in England published a Long Term Plan setting out how they plan to improve health and social care services over the next ten years.

Healthwatch Worcestershire is working with Healthwatch Herefordshire to gather your views about how to implement the changes locally around the following priorities:

- Local care out of hospital
- Emergency same day care
- Prevention and self-care
- Health inequalities
- Mental Health care for adults
- Mental Health care for children and young people
- Learning Disabilities and Autism
- Specialist services - for major conditions including cancer, dementia and lung and heart disease
